

Mathematics

**Reasoning with large whole numbers:
Solving problems involving Roman
Numerals**

Ms Jeremy

Missing Values

Pause the video to complete your task

Resume once you're finished

a) $220 + CCXII = \underline{\hspace{2cm}}$ **432 / CDXXXII**

b) $DLVII + CLXXIII = \underline{\hspace{2cm}}$ **730 / DCCXXX**

c) $CMLIII + \underline{\hspace{2cm}}$ **26 / XXVI** = CMLXXIX

Roman Numerals Errors

Can you explain the errors that have been made?

800	CCM
-----	-----

124	CXXVI
-----	-------

55	VV
----	----

Independent Task

- Complete the following equations using Roman Numerals and Arabic numerals:
 - $CXXII + LXVII = \underline{\hspace{2cm}}$
 - $CMLXXIII - DXVII = \underline{\hspace{2cm}}$
 - $DCLX + \underline{\hspace{2cm}} = CMLXIII$
- Explain the errors that have been made here:

$XXXX = 40$	$DCVI = 406$	$XM = 990$
-------------	--------------	------------
