# **Equivalent Fractions**

### **Downloadable Resource**

Miss Jones

## **Matching Task**

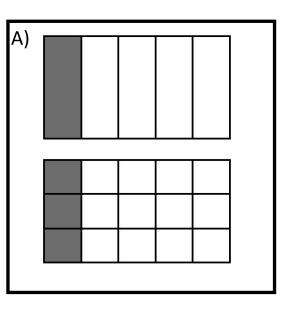

Match the equivalent fractions to the correct representation. Explain how you know and what you notice.

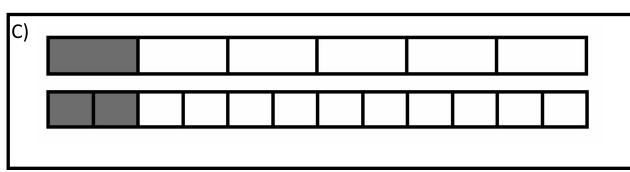

$$\frac{1}{4} = \frac{3}{12}$$

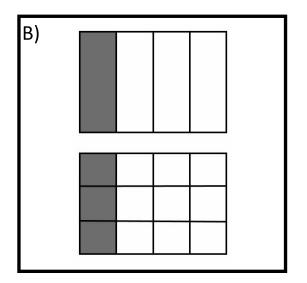

$$\frac{1}{5} = \frac{3}{15}$$

$$\frac{1}{6} = \frac{2}{12}$$

$$\frac{1}{2} = \frac{6}{12}$$

D)									
	×								
	=				i	(i)	2	le.	
	,								

# Challenge

Create your own representations for these pairs of equivalent fractions:

$$\frac{1}{4} = \frac{2}{8}$$

$$\frac{1}{5} = \frac{2}{10}$$
