

Rounding to a required degree of accuracy

Mathematics

Mrs Harris

	Nagoya	9,406,264	
	Tehran	8,432,196	
	Seoul	9,773,746	

Round the populations to the nearest multiple of 100,000 then plot them on the number line.

Independent learning

Round each number to the nearest multiple of 1000

- 765,432
- 76.543
