

How are organisms adapted to live in the deep sea?

Science

Miss Simkin

Recap

Fill in the gaps:

The oceans cover _____% of the Earth's surface.

The oceans contain _____% of the living space on the planet.

_____% of the world's oceans are unexplored.

Adaptations

Answer the questions:

1. What is bioluminescence?
2. How are organisms adapted to scarce food in the deep sea?
3. What are the 3 different ways that deep sea fish can be camouflaged?

Deep sea conservation

Design a poster persuading your school to help conserve the deep sea:

1. What the deep sea environment is like.
2. Examples of animals which live in the deep sea and their adaptations.
3. Threats to the deep sea.
4. Draw and label pictures
5. Use coloring pencils once you have finished creating your poster!
