# Seven Continents 100% Sheet

This is your 100% sheet, it includes all the wonderful knowledge we are learning about in this unit.

- Practise learning the key facts, it will help you in future lessons
- Use it to make flash cards
- See if you can learn all of the facts quicker than your parent or carer!

| Continent     | A very large area of land, usually surrounded by the sea, and containing different countries.                                                                                                                                                                                        |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| North America | <ul style="list-style-type: none"> <li>• Third largest continent</li> <li>• Contains the United States of America, but also Canada, Greenland, Mexico, Greenland and 18 other countries.</li> <li>• Most people speak English, Spanish or French.</li> </ul>                         |
| South America | <ul style="list-style-type: none"> <li>• Fourth largest continent.</li> <li>• Contains the longest river, highest waterfall, and the longest mountain range</li> <li>• Contains the worlds largest rainforest (the Amazon rainforest).</li> </ul>                                    |
| Europe        | <ul style="list-style-type: none"> <li>• Second smallest continent</li> <li>• Humans first travelled to Europe about 35,000 years ago.</li> <li>• European countries conquered much of the world.</li> <li>• The United Kingdom is in the continent of Europe.</li> </ul>            |
| Africa        | <ul style="list-style-type: none"> <li>• Second largest continent</li> <li>• Has the most countries (55).</li> <li>• The oldest human fossils and skeletons have been found in Africa.</li> </ul>                                                                                    |
| Asia          | <ul style="list-style-type: none"> <li>• The largest continent.</li> <li>• It contains the most people (biggest population).</li> <li>• Also includes lots of mega-cities (E.g. Tokyo in Japan, Beijing in China, Delhi in India).</li> </ul>                                        |
| Australia     | <ul style="list-style-type: none"> <li>• Smallest continent</li> <li>• Sometimes called Australasia or Oceania.</li> <li>• Contains Australia, New Zealand, and many islands.</li> </ul>                                                                                             |
| Antarctica    | <ul style="list-style-type: none"> <li>• Third smallest continent.</li> <li>• Extremely cold, covered in ice.</li> <li>• Doubles in size in winter when the seas freeze.</li> <li>• Contains 90% of the world's ice.</li> <li>• No humans live in Antarctica permanently.</li> </ul> |

| Continent     | Area (km <sup>2</sup> ) | Population (approximately 2020) |
|---------------|-------------------------|---------------------------------|
| Africa        | 30 million              | 1.2 billion                     |
| Antarctica    | 14 million              | 5,000 (temporary)               |
| Asia          | 44 million              | 4.5 billion                     |
| Europe        | 10 million              | 741 million                     |
| North America | 24 million              | 579 million                     |
| Australia     | 8.6 million             | 40 million                      |
| South America | 18 million              | 422 million                     |
