## Using bar models to solve word problems

Mathematics

Miss Brinkworth

## Part A

Do these bar models represent part/whole or times greater/more

## questions?

## Part B

## Match these word problems to the best bar models which would

 help answer them

| Robin had a score of 24 in | For 3 days Friar Tuck | The Sheriff fired 3 |
| :--- | :--- | :--- |
| the archery competition. | collected 8 coins. How | arrows in the time |
| The sheriff's score was | many coins did he | given. Robin Hood |
| only one third as much. | collect in total? | fired 8 times as many. |
| What was the sheriff's |  | How many did Robin <br> score? |
|  |  | Hood fire? |
