Mathematics

## To calculate multiplication facts using the distributive law

Miss Thomas

## Independent Task

Use the distributive law to calculate the equations.
$8 \times 15$
$7 \times 18$

$9 \times 14$

## Independent Task Answers

Use the distribution law to calculate the equations.

$$
7 \times 18=126
$$

$$
9 \times 14=126
$$
