

Lesson 3 - Diffusion (Part 1)

(Downloadable student document)

Science - Key Stage 3

Cells, tissues and organs

Miss Wickham

Your science teacher wants to have instant dry noodles for lunch, by adding water to them to rehydrate them. Explain to your science teacher how they can cook the noodles in the quickest time so they can have them for lunch.

Include:

- The definition of diffusion**
- Factors affect the rate of diffusion.**

The definition of diffusion is..

The science teacher could cook her noodles quicker by...
