|  |  |  |
|  |  |  |

A right angle measures $\qquad$
An acute angle is more than $\qquad$ and less than $\qquad$ .
An obtuse angle is more than $\qquad$ and less than $\qquad$ —.

## Main activity - Draw angles based on the criteria.

Draw 2 different acute angles. Use a ruler to stay neat.

Draw 2 different obtuse angles. Use a ruler to stay neat.

Draw a triangle with 1 obtuse angle.

## Main activity - Draw angles based on the criteria.

Draw a
quadrilateral with $\underline{2}$ acute angles

Draw a
quadrilateral with $\underline{2}$ right angles

Draw a pentagon with only 1 acute angle.

Draw a pentagon with a total of $\underline{3}$ acute angles.
