# Adding Fractions <br> (With a Total Greater than One) 

Miss Jones

## Independent Task

Solve each calculation. Write each answer as an improper fraction and a mixed number.

$$
\begin{array}{lll}
\frac{5}{6}+\frac{2}{6} & \frac{7}{8}+\frac{6}{8} & \frac{2}{3}+\frac{2}{3} \\
\frac{3}{4}+\frac{3}{4} & \frac{5}{7}+\frac{6}{7} & \frac{4}{5}+\frac{3}{5}
\end{array}
$$
