# Investigating quantities using more or fewer

Lydia Cuddy-Gibbs and Zara Simpson

OAK
NATIONAL
ACADEMY

Can you work out how many passengers are in each carriage?

- There are 3 passengers in the red carriage.
- There is 1 fewer passenger in the green carriage than in the red carriage.
- There is 1 more passenger in the grey carriage than in the green carriage.

Do any carriages have the same amount?

- There are 3 passengers in the red carriage.
- There is 1 fewer passenger in the green carriage than in the red carriage.
- There is 1 more passenger in the grey carriage than in the green carriage.
