

# Which materials are absorbent?

Science

Miss Emms

1. Ask your parent or carer if you can use water to test absorbency.
2. Make sure you are in a space which you don't mind getting wet!
3. Make sure any valuable items are far away.
4. Pour a very small amount of water onto the object. Does the material take in/absorb the water?

**Draw this table:**

	<b>Cloth or sponge</b>	<b>Plastic bag or plastic cup</b>	<b>Foil</b>	<b>Cardboard or paper</b>	<b>Cotton wool</b>
