

Representing 2-digit by 2-digit multiplication

Mathematics

Natalie Sew

Independent Task

Draw an area model for each of these equations. Then, use the area model to solve each equation.

$$23 \times 17$$

$$38 \times 18$$

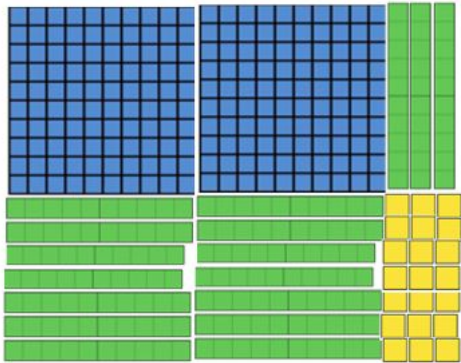

$$28 \times 26$$

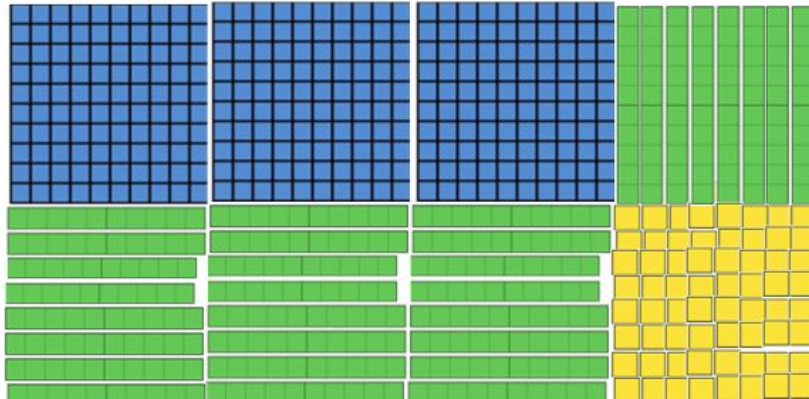

Independent Task - support slide

Draw an area model for each of these equations. Then, use the area model to solve each equation.

$$23 \times 17$$

$$38 \times 18$$

$$28 \times 26$$
