Computing

Lesson 2: Words are not Enough

Developing for the Web

Allen Heard

Task 1 - Embedding an image

Please ask a parent or carer for permission before attempting this task. Oak National Academy are not responsible for any third party content.

Create and test web page. It should include the following:

- A heading
- A suitable image
- Some paragraph text relating to your image

Save your web page appropriately, taking care to end with **.html**

Task 2 - Some general HTML housekeeping

Go ahead and add the highlighted tags to your web page from Task 1.

Your original content should go where stated opposite.

Save the file and once again, test it is working.

```
<!DOCTYPE html>

<html>

<body>

Your original content here

</body>

</html>
```

Task 3 - What has gone wrong here?

Carefully look at this HTML document. Can you circle three reasons why it won't work in the way the designer expected?

```
<h1><center>Learning to cook pasta<center></h1>
```

```
When cooking pasta you are aiming for it to be "al dente"
which translates from Italian as "to the tooth", this means
you should use your teeth to chew it.</p>
```

```
<img src = "pastadish" alt = "Picture of plate of pasta">
```
