Let's Explore

Draw place counters on a place value chart to represent the following 5-digit numbers.

14 762

82 478

98 999

Ten thousands	Thousands	Hundreds	Tens	Ones

Independent Task

1. Represent each 5-digit number on a place value chart using drawn place value counters.
2. Find 2 different ways of partitioning each number. Write these down using an equation.

E.g. 32 178

12 763

21 455

72 398

62 811

Ten thousands	Thousands	Hundreds	Tens	Ones
