Lesson 10 of 10

# Using length, weight, and volume

Ms. Dobrowolski

# Independent Task

The woman makes some gingerbread men.

10 are short and 10 are tall. How many does she make altogether?

The short gingerbread men are 5 units tall.

The tall gingerbread men are **double** the height of the short gingerbread men.

How tall are the tall gingerbread men?

The man drinks half a glass of water with his gingerbread. How much is half a glass?

Circle the answer.
