

Unit 10: Measure and Money Problems

Fruit

Independent Task

Mr Whitehead

A market stall is selling oranges and lychees.

Oranges cost £0.45 each and lychee fruit cost £0.25 each. Reena buys some oranges and lychees, which cost a total of £6.35.

How many oranges and lychees could she have bought?

Fruit

How many oranges?	Total	How many lychees?	Total	Total cost of both	Too much? Too little?
3	£1.35	3	£0.75	£2.10	Too little
10	£4.50	10	£2.50	£7.00	Too much
