## **3-D Shape:**

**Using and applying knowledge of the properties of 3-D shapes**

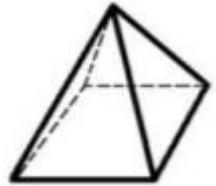

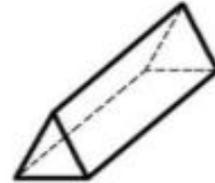

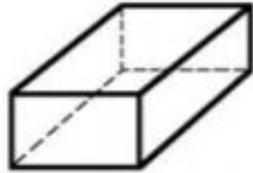

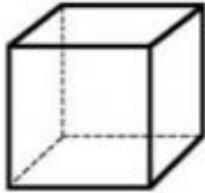

Ms Jeremy

# Warm Up: Naming 3-D shapes

Can you match the shapes to their names?

Square-  
based  
pyramid

Cylinder  
Cube

Triangular  
prism

Cone  
Cuboid

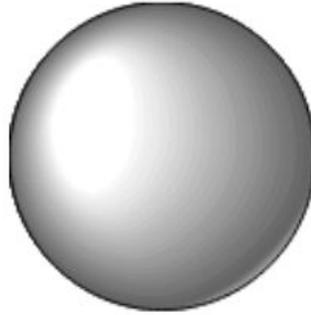

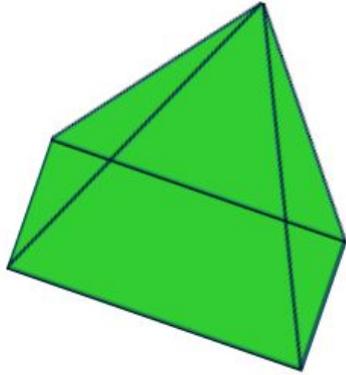

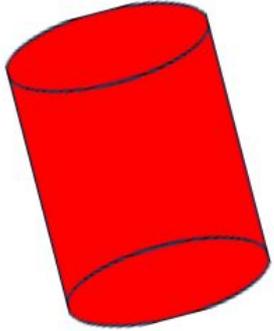

Pause the video to complete your task

Resume once you're finished

Use the terms  
to describe  
these 3-D  
shapes

**Face**

**Edge**

**Side**

**Vertex**

# Applying knowledge of 3-D shapes

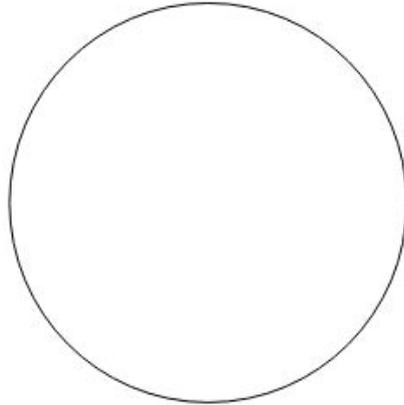

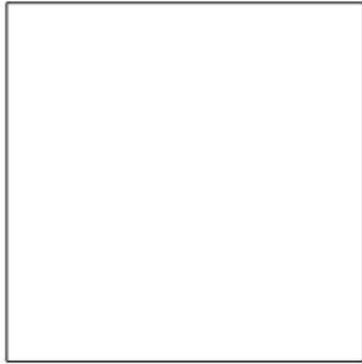

While shopping, I bought items that used these 3-D shapes. What could the items have been?

cuboid	
cone	
cylinder	
cube	
sphere	
triangular prism	

When looking directly down at some 3-D shapes, this is what I see. What could those 3-D shapes be?

Pause the video to complete your task

# Independent Task

Resume once you're finished

This shape has five faces. It has nine edges and six vertices.

**What is the shape?**

**What else can you tell me about it?**

This shape has one vertex and one edge.

**What is the shape?**

**What else can you tell me about it?**

This shape has two circular faces.

**What is the shape?**

**What else can you tell me about it?**

This shape has six rectangular faces.

**What is the shape?**

**What else can you tell me about it?**

The following shapes are sorted into two groups.

What could the two groups be?
