Forming and Solving Linear Equations 2

Can you use these bar models to find the value of a ?

Solve these equations. You could draw a bar model to help you.

1. $4a + 5 = 20$

2. $21 = 9 + 3a$

3. $6a + 3\frac{1}{2} = 27.5$

4. $9.2 = 2x + 3.5$

5. $5a + 30 = 20$
