

# Compare and Order Numbers to Ten Million Worksheet

Mathematics

Mrs Harris

	Nagoya	9,406,264
	Tehran	8,432,196
	Seoul	9,773,746

How could you represent the populations of these three cities on your number line? What comparisons can you make?

The table shows the population of five cities in the world.

How might we order these from smallest to largest population?

<b>City</b>	<b>Country</b>	<b>Population</b>
<b>Rome</b>	<b>Italy</b>	<b>2 870 336</b>
<b>Madrid</b>	<b>Spain</b>	<b>3 141 991</b>
<b>Paris</b>	<b>France</b>	<b>2 244 000</b>
<b>London</b>	<b>UK</b>	<b>8 673 713</b>
<b>Berlin</b>	<b>Germany</b>	<b>3 670 999</b>
