Lesson 12 of 15

# Using the “Round and Adjust” Strategy for subtraction

Ms. Dobrowolski

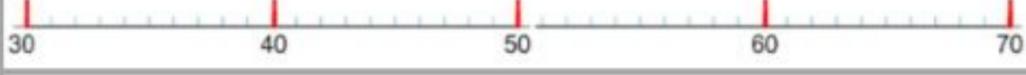

# Independent Task

Use the round and adjust strategy to solve the following equations.

Use the number lines to demonstrate your mental calculations.

$63 - 19 = \square$

$84 - 19 = \square$

$64 - 29 = \square$

$36 - 9 = \square$
