

Adding Two 3-Digit Numbers (Without Regrouping)

Worksheet

Mathematics

Mrs Brinkworth

Part A

$456 + 223 = \square$	$555 + 432 = \square$	$345 + 142 = \square$
$\square = 765 + 221$	$\square = 409 + 230$	$\square = 756 + 222$
$604 + 392 = \square$	$\square = 458 + 421$	$\square = 189 + 700$

Challenge -

Add two 3-digit numbers to get 999

How many different ways can you find?

Part B

Which one of these would be the odd one out?

Why?

$507 + 120 =$

$634 + 214 =$

$475 + 119 =$

$802 + 137 =$

Challenge - Answer it
