Using verbs reflexively

Most verbs can be used reflexively. The reflexive use of an infinitive verb is indicated by the **-se** at the end:

Sometimes, the reflexive form of a verb changes its meaning completely.

E.g.,

Llevar una cámara - **to carry** a camera

Ilevarse bien con (alguien) - **to get along** well with someone

However, most verbs use reflexive pronouns without the fundamental meaning changing:

Hablar - **to speak**

Hablarse - **to speak to oneself**

Using verbs reflexively in the 'I' form

The reflexive pronoun used to mean '(to) myself' is 'me'.

It goes in front of the verb. This is true for all tenses:

Me hablo - I speak to myself

Me hablé - I spoke to myself

Me hablaba - I used to speak to myself

Me voy a hablar - I am going to speak to myself

Using verbs reflexively in the ‘he/she’ form

To mean ‘(to) himself/herself’ use the reflexive pronoun ‘**se**’.

It goes in front of the verb. This is true for all tenses:

Se habla - **he/she** speaks **to him/herself.**

Se habló - **he/she** spoke **to him/herself.**

Se hablaba - **he/she** used to speak **to him/herself.**

Se va a hablar - **he/she** is going to speak **to him/herself.**

'me' or 'se'?
