True

False

3. Playdough is heavier than wood

True

False

Which materials were heavier? Identify which is true or false.

ANSWERS

1. Plastic is heavier than straw

True

False

2. The glass is lighter than paper

True

False

3. Playdough is heavier than wood

True

False

Sort the materials into heavy and light by drawing and labelling them in your book.

Heavy

Light

Glass cup
Plastic bricks
Straw
Playdough
Wooden twigs
1 sheet of paper

1. Gather your materials
2. Build your wall using each group of materials
3. Secure your wall with glue or sticky tape
4. Keep your wall for lesson 5!
