# Adding and Subtracting Multiples of Ten

## Independent Task

Miss Hughes

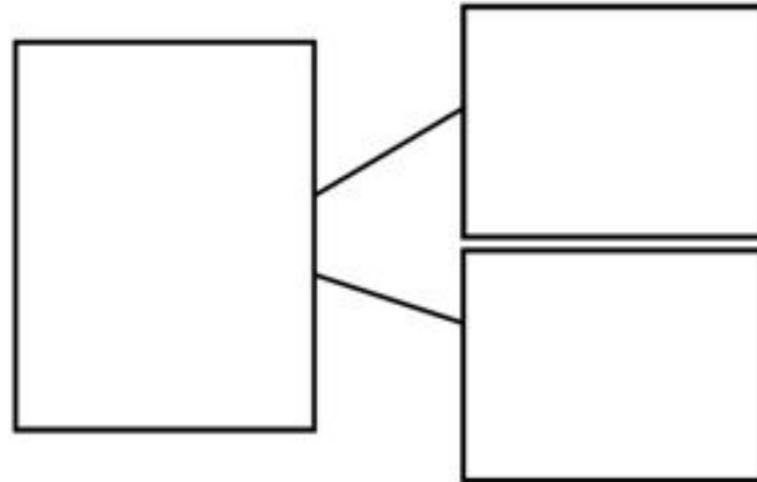

# Example

## Questions 1 and 2

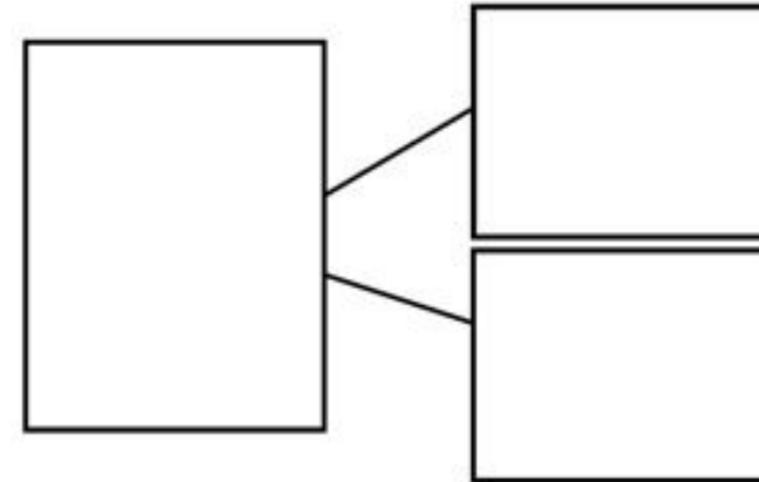

If I know...

$$4 + \square = 7$$

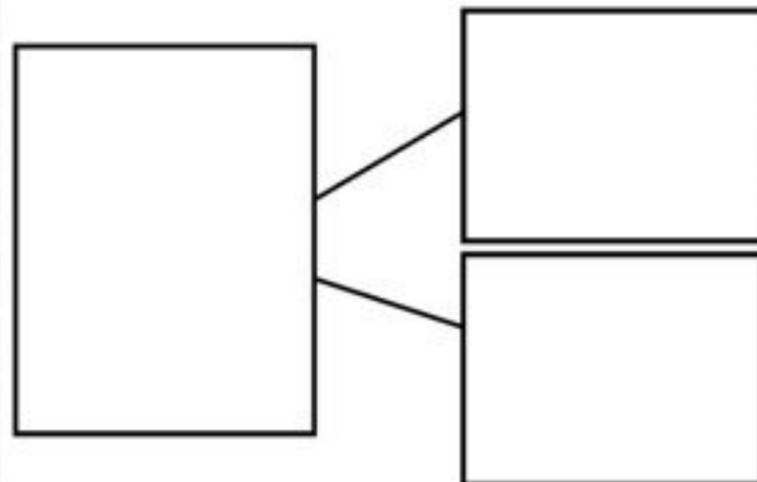

Then I know...

$$40 + \square = 70$$

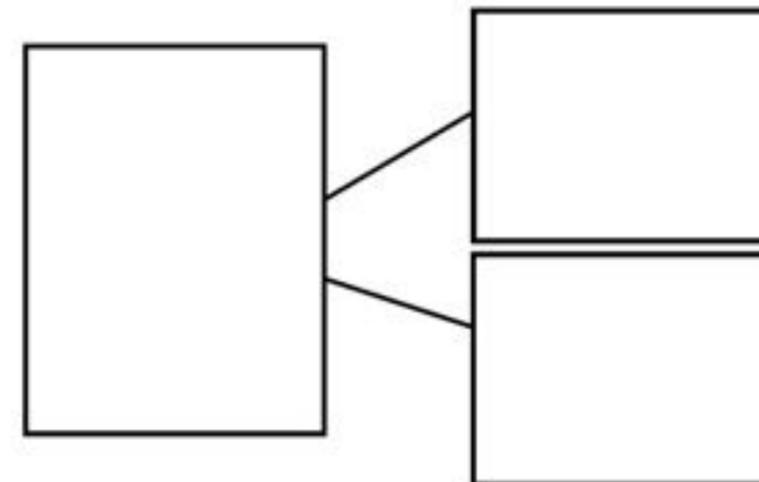

If I know...

$$\square = 5 + 3$$

Then I know...

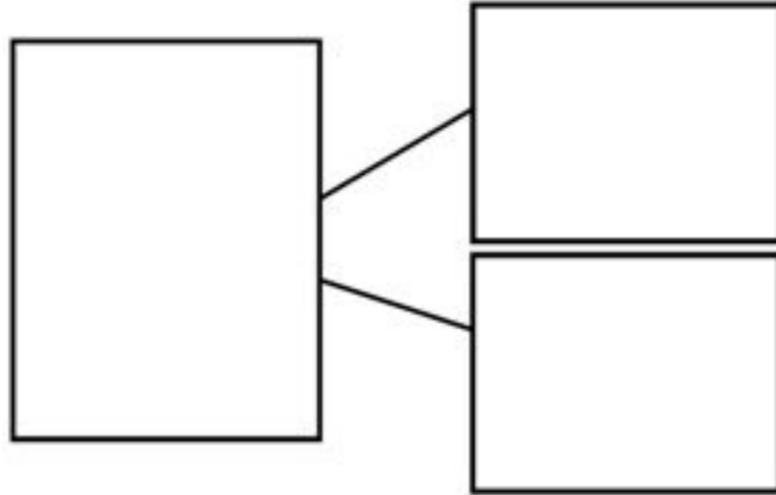

$$\square = 50 + 30$$

## Questions 3 and 4

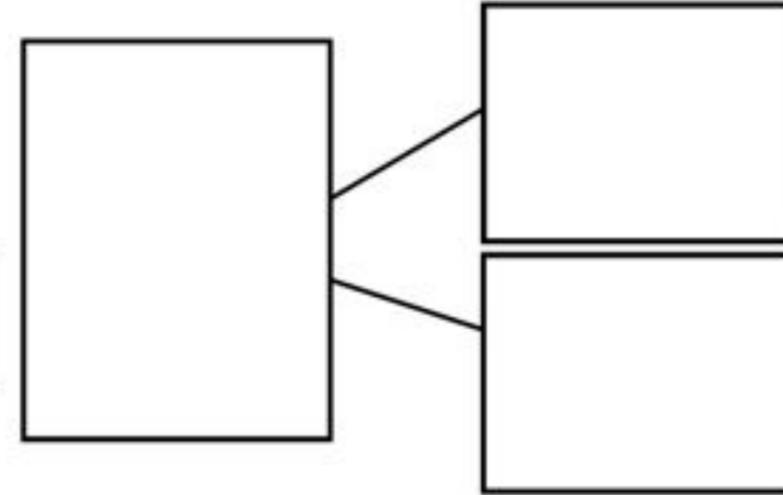

If I know...

$$7 - 2 = \square$$

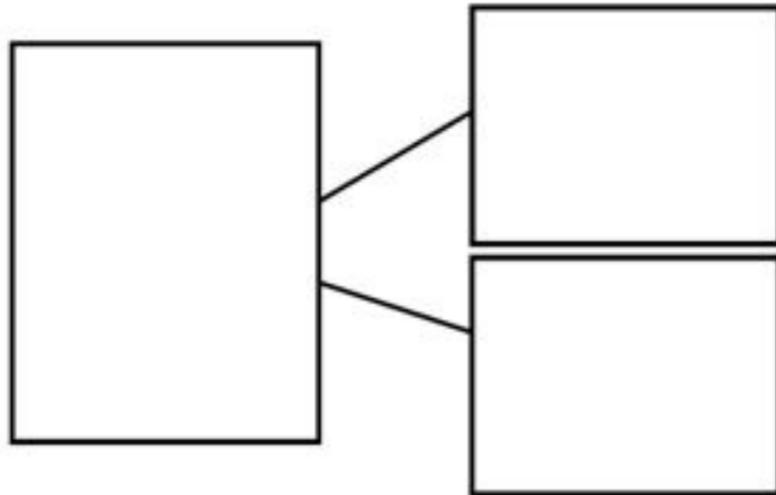

Then I know...

$$70 - 20 = \square$$

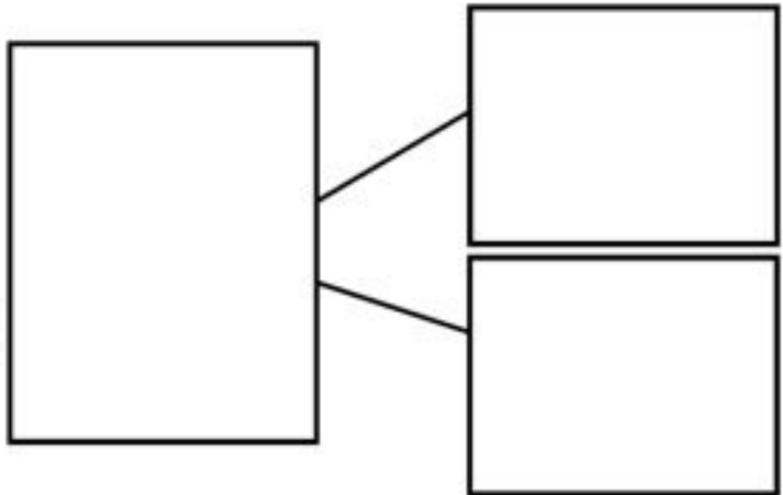

If I know...

$$9 - \square = 6$$

Then I know...

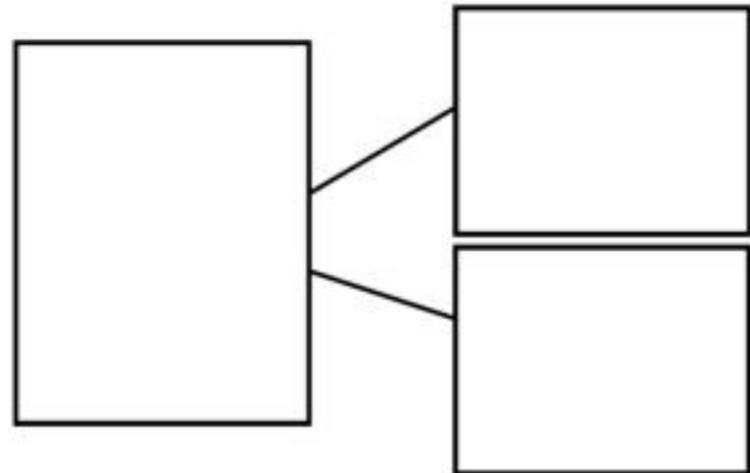

$$90 - \square = 60$$

## Question 5

If I know...

$$6 = \square - 2$$

Then I know...

$$60 = \square - 20$$
