

Mathematics

Lesson 10 of 15

Using the “Round and Adjust” Strategy for addition

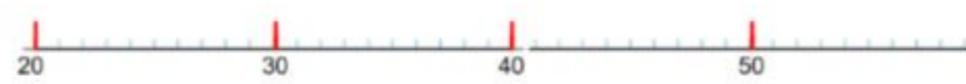

Ms. Dobrowolski

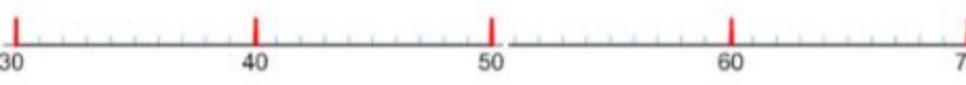

Independent Task

Use the round and adjust strategy to solve the following equations.

Use the number lines to demonstrate your mental calculations.

$23 + 29 = \square$

$64 + 19 = \square$

$34 + 29 = \square$

$16 + 19 = \square$
