

Independent Task

To investigate a problem, describing position on a 2-D grid as coordinates

Mr Critchlow

To Start

Complete the number trees. The number at the top is the sum of the two numbers below it.

This one has been
ALMOST completed for
you

Moving on

What are the coordinates for each of the letters?

Letter	Coordinate	Letter	Coordinate
A		G	
B		H	
C		I	
D		J	
E		K	
F		L	

Moving on

Plot to coordinates then name each shape.

(1,1) (5,1) (5,5) (1,5)

Shape:

(1,3) (5,3) (5,5) (1,5)

Shape:

(0,3) (3,6) (6,3) (3,0)

Shape:

Main task

These points all mark the vertices (corners) of eight hidden squares.

Each of the 4 red points is a vertex shared by two squares.

The other 24 points are each a vertex of just one square.

All the squares are different sizes.

Main task

Can you find all 8 of the squares and mark them off on the grid by joining their vertices up?

I'll give you the coordinates of one square for free!

(0,14) (3,10) (7,13) (4,17)
