Miss Kidd-Rossiter

Try this

Antoni has made an equilateral triangle using sticks.

He wants to make a square, pentagon, hexagon, octagon, etc using the same sticks.

Antoni

The perimeter of the triangle is $4p + 3$ cm

Write expressions for the perimeters of the other shapes he wants to make.

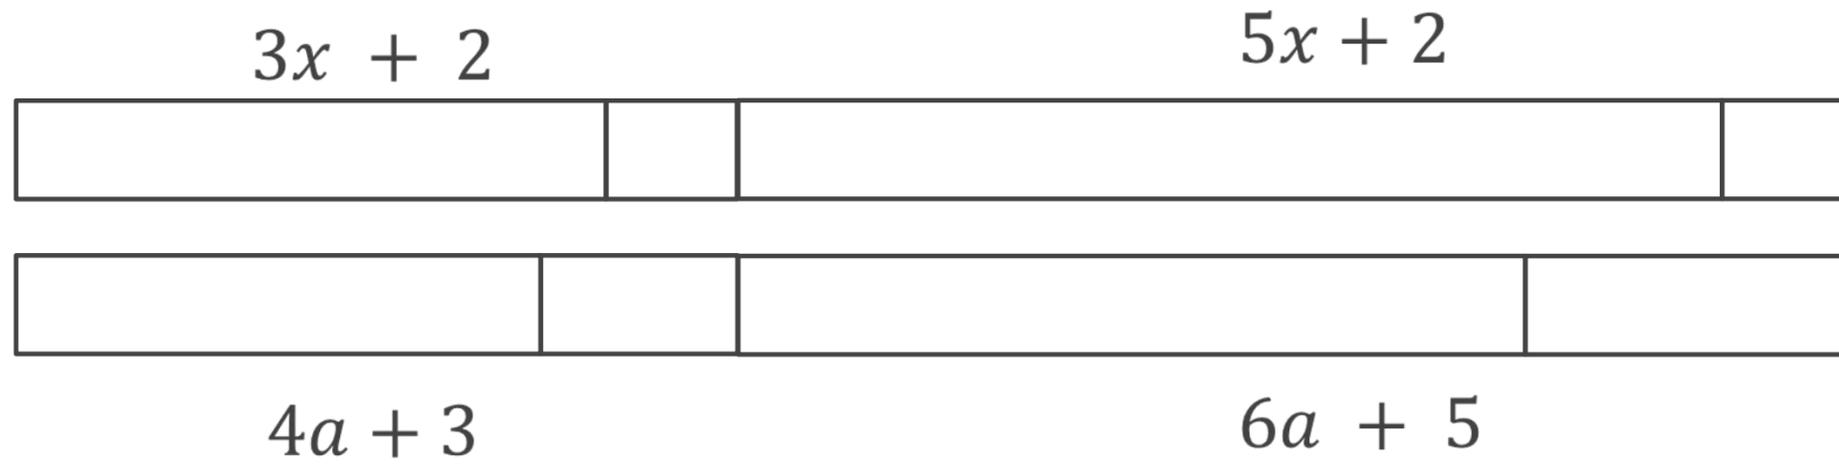

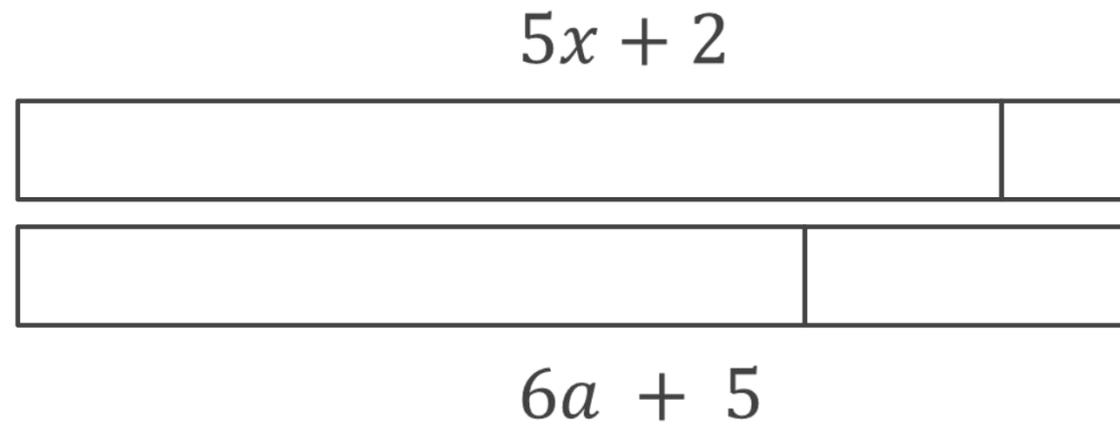

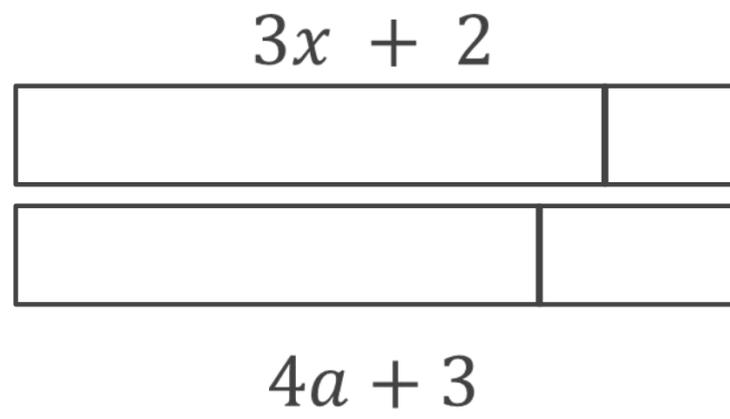

Connect

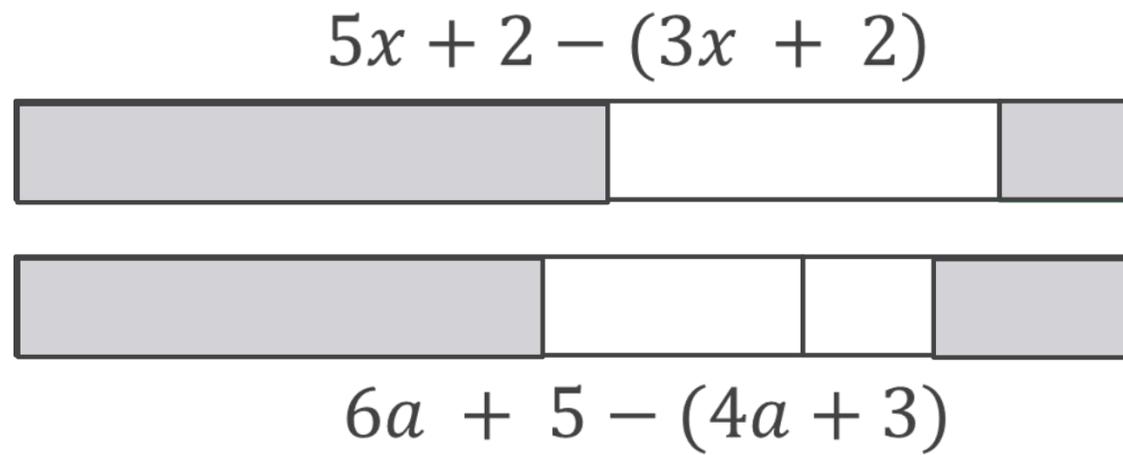

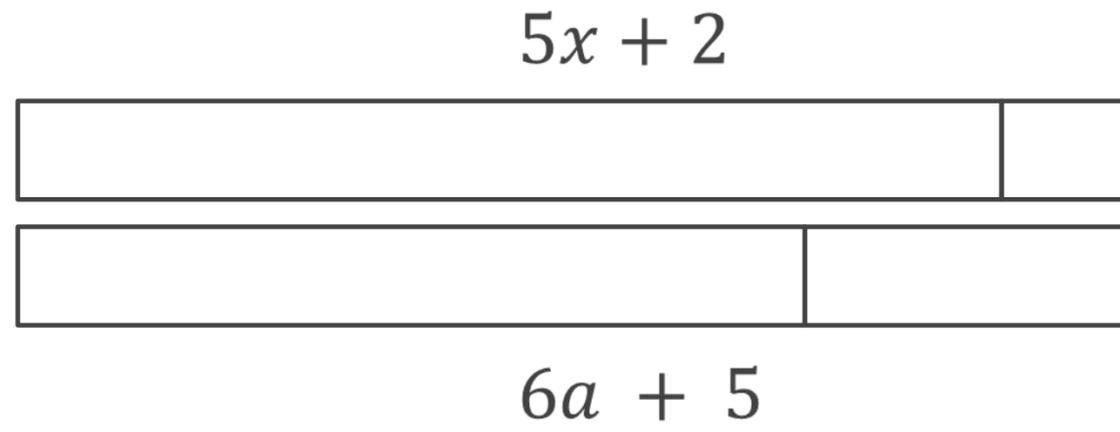

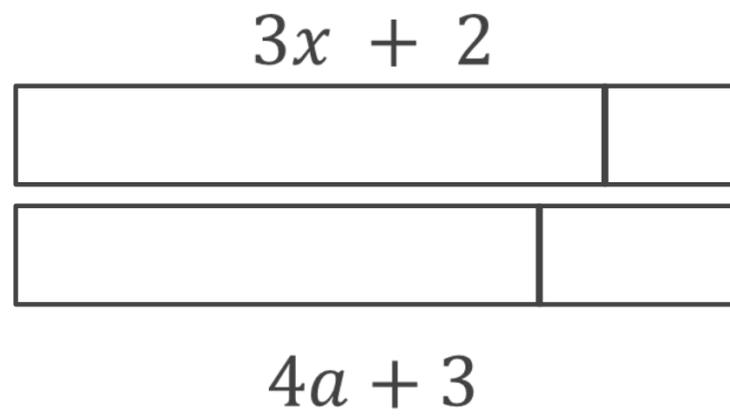

$$3x + 2 = 4a + 3$$

Connect

Connect

Independent task

Given that:

$$2a + 5 = b \text{ and } 3a = b - 1$$

Complete:

$$4a + 10 =$$

$$5a + 5 =$$

$$a - 5 =$$

$$= -1$$

$$7a + 10 =$$

Independent task

Given that:

$$11x - 10y = 18z \text{ and } 4x + 5y = 45$$

Complete:

$$22x - 20y =$$

$$7x - 15y =$$

$$= 135$$

$$= 18z + 45$$

$$= 45 - 18z$$

Explore

$$3x + 4 = 2y$$

$$5x = 2y + 8$$

$$4 - 2x = 25 - 3y$$

Use the equations in the cards above to find ways of completing the equations in the cards below.

$$6x + 8 = \dots$$

$$8x + 4 = \dots$$

$$20x - 1 = \dots$$

$$8x + 1 = \dots$$

$$8 + x = \dots$$

$$2x - 7 = \dots$$

What other equations can you write?
