

Computing

Lesson 1: Across Time and Space

Representations - from Clay to Silicon

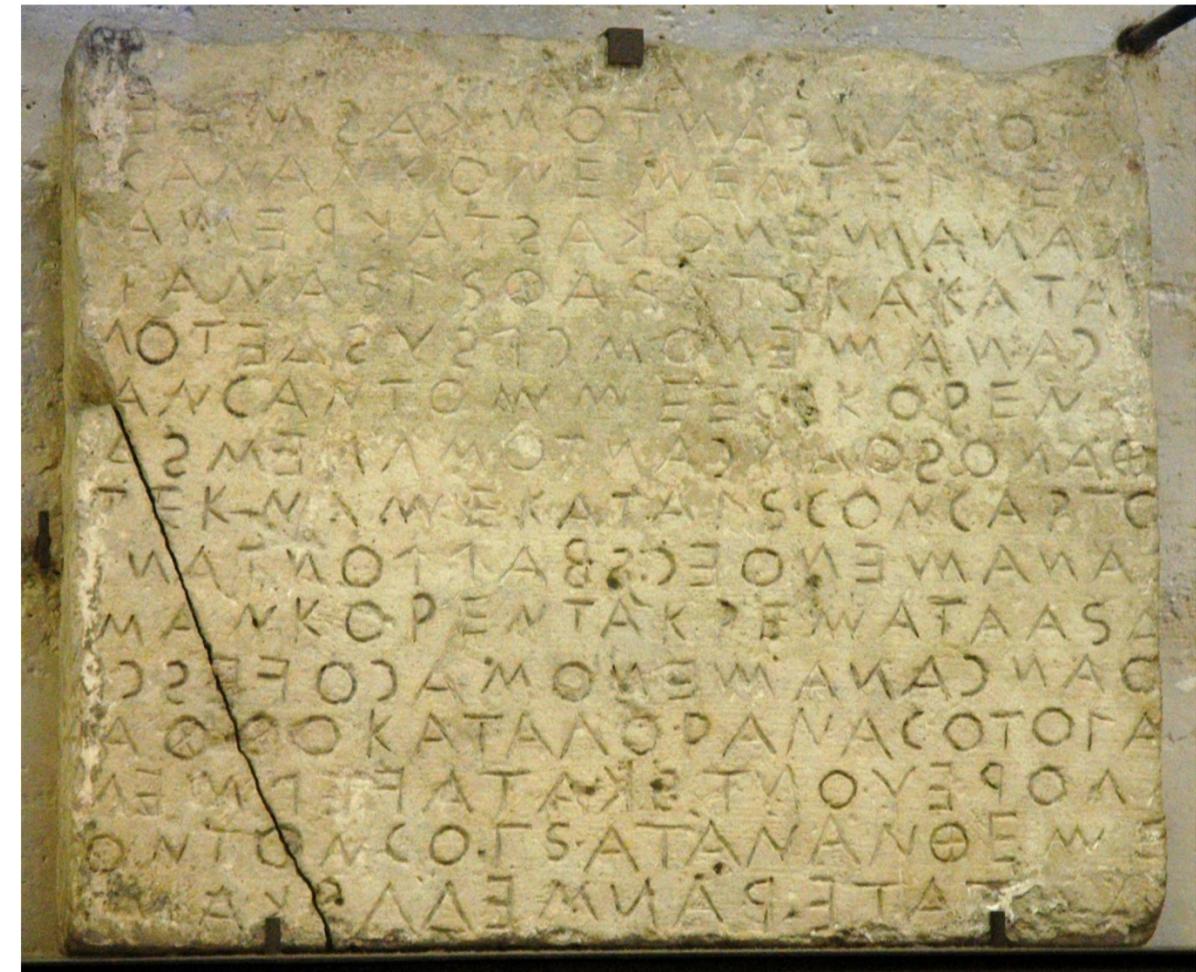

Sara Alade

Materials from the Teach Computing Curriculum created by the National Centre for Computing Education

Task 1 - Why did people invent writing?

If we can express our thoughts and feelings through speech and gestures, why do we need writing?

Credit: Code of Gortyn: Wikimedia

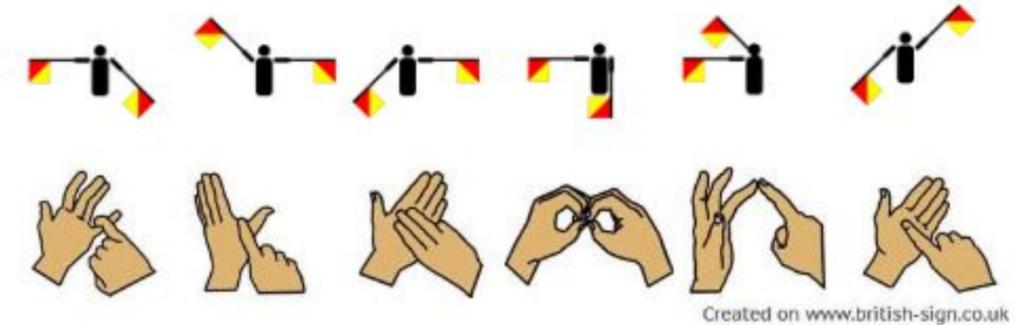

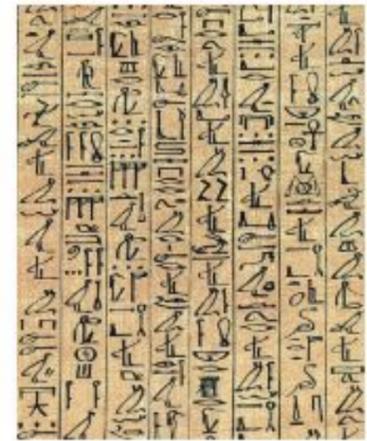

Task 2 Choosing representations - link to Computing

Who decides on what these sequences of symbols mean?

Your answer:

In which situation would each representation be used?

Your answer:

Credit: British-Sign; Wikipedia
