Computing

Lesson 5: Online Collaboration

Sharing Information

Ben Hall

Materials from the Teach Computing Curriculum created by the National Centre for Computing Education

Task 1 - Collaborating online

Who is editing the document?

How are they editing the document?

What are they able to do online that cannot be done offline?

Task 2 - How does collaboration help?

1. How can thoughtful comments contribute to online collaboration?	2. How can suggestions improve online collaboration?
3. How does responding to comments help with online collaboration?	4. How does resolving comments help with online collaboration?
