# Lesson 6: Making my own 3D Model

**3D Modelling**

Josh Crossman

# Task 1 - Producing a 3D model from a plan

Use your design sheet to create your own model in Tinkercad.

Follow the development steps on your plan.

# Task 2 - Evaluating a 3D model

Criteria	Evaluation	
	Met? Yes/No	Comment
Accurate dimensions		
3D objects correctly placed		
3D objects grouped		
Fits a 152 mm x 102 mm photo		
Has a stand		

# Task 3 - Improving a 3D model

Add one or more extra feature to your model:

- Intricate patterns to the frame
- Make it self-standing
- Add a wall mount
