Independent task

Natural polymer	Monomer
DNA	
Protein	
Starch	
Glycogen	
Enzymes	
Cellulose	

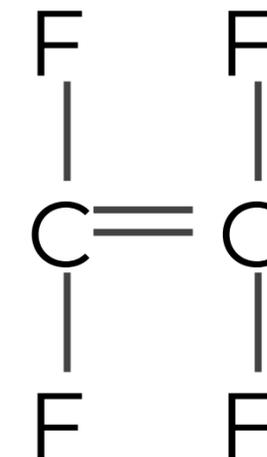

Independent task

1. What is the monomer in addition polymerisation?
2. What is the functional group that is essential for forming an addition polymer?
3. How many products are produced during addition polymerisation?
4. Draw and name the addition polymers that are formed from the following monomers.

Monomer
Fluoroethene

Monomer
Tetrafluoroethene
