

Reflecting in a Given Diagonal Line

Maths

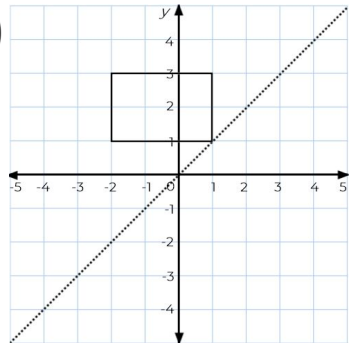

Miss Davies

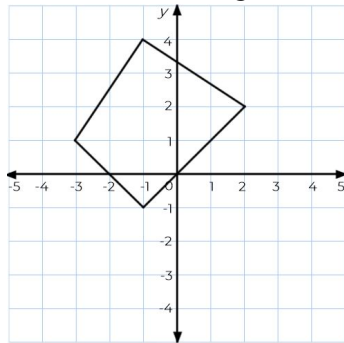

Reflecting in a Given Diagonal Line

1. Reflect each shape in the line $y = x$.

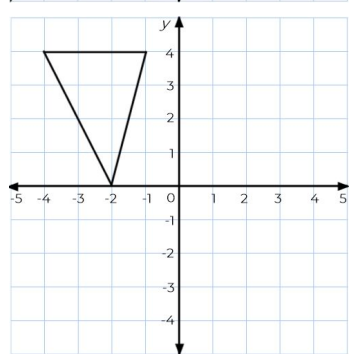

a)

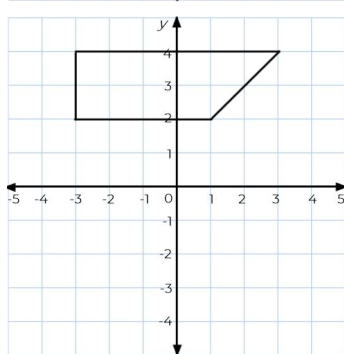

b)

c)

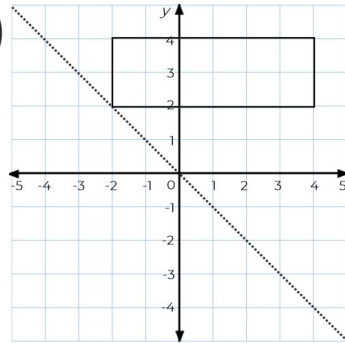

d)

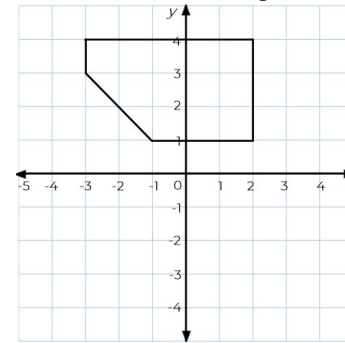

2. Reflect each shape in the line $y = -x$.

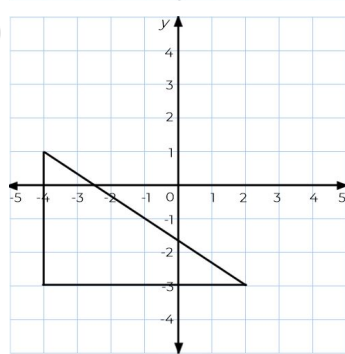

a)

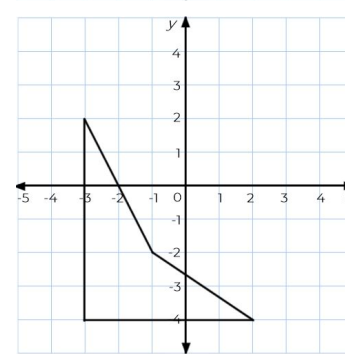

b)

c)

d)

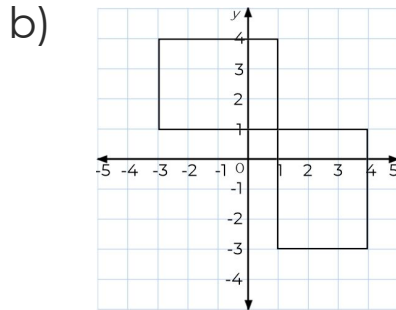

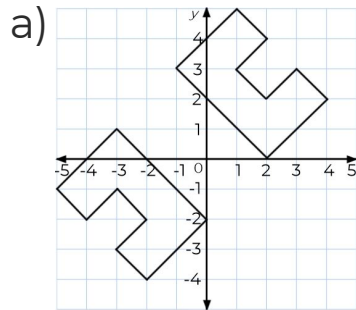

Reflecting in a Given Diagonal Line

3. A polygon is in the second quadrant of a coordinate grid. It is reflected in the line $y = x$.

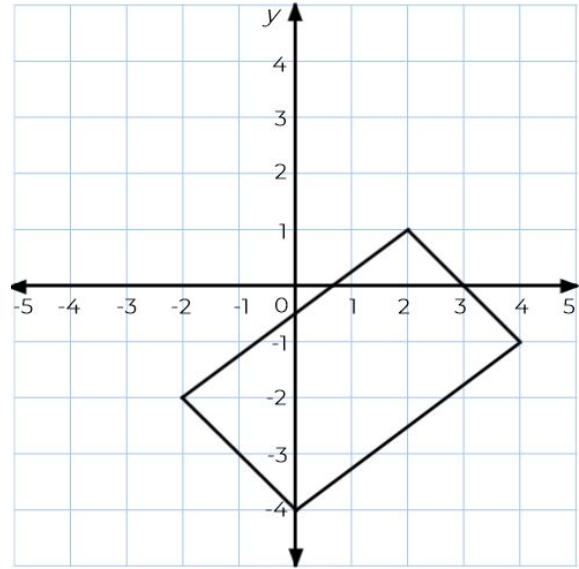

It is reflected in the line $y = x$.

Which quadrant is the reflection in?

4. Identify the mirror line in each of the reflections.

5. Reflect the parallelogram in the line $y = x + 1$

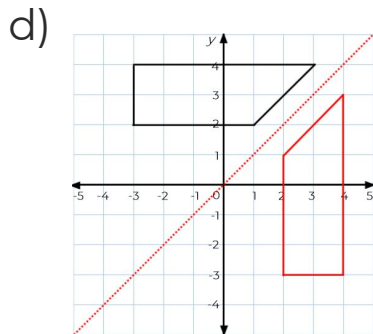

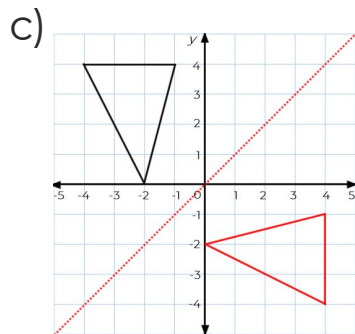

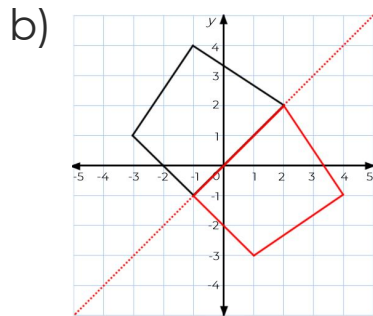

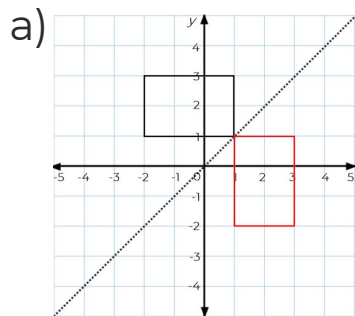

Answers

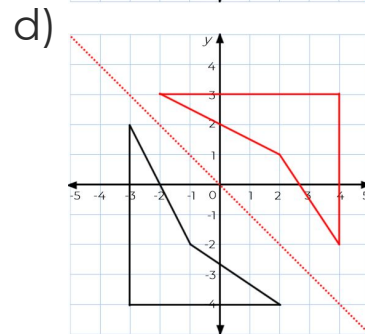

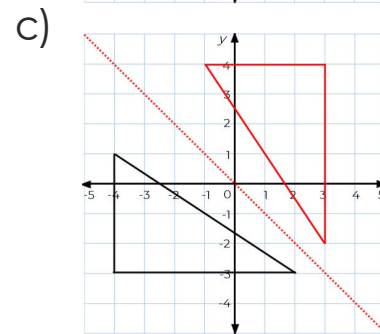

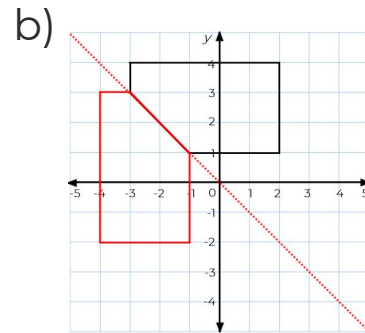

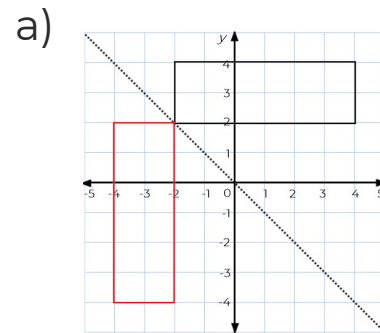

Reflecting in a Given Diagonal Line

1. Reflect each shape in the line $y=x$.

2. Reflect each shape in the line $y=-x$.

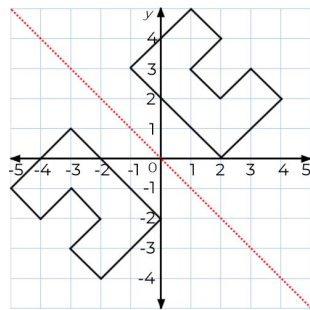

Reflecting in a Given Diagonal Line

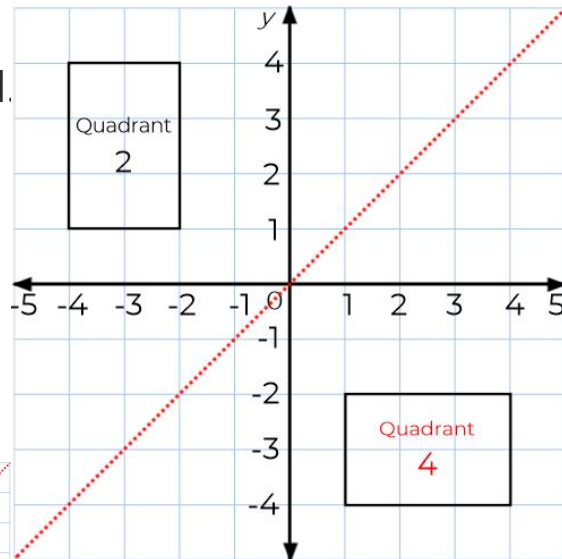

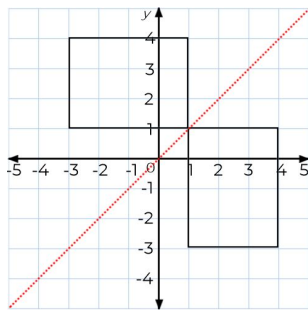

3. A polygon is in the second quadrant of a coordinate grid. It is reflected in the line $y = x$. Which quadrant is the reflection in? **4**

4. Identify the mirror line in each of the reflections.

a) $y = -x$

b) $y = x$

5. Reflect the parallelogram in the line $y = x + 1$
