Adding Fractions (Up to One Whole)

Downloadable Resource

Miss Jones

$$\frac{3}{8} + \frac{3}{8}$$

$$\frac{1}{6} + \frac{2}{6}$$

$$\frac{1}{3} + \frac{1}{3}$$

$$\frac{2}{5} + \frac{1}{5}$$

$$\frac{5}{9} + \frac{3}{9}$$

$$\frac{1}{5} + \frac{3}{5}$$

Three fractions add together to make nine twelfths.

What could the three fractions be?

$$\underline{} + \underline{} + \underline{} = \frac{9}{12}$$
