

Mathematics

Dividing by 10 using place value

Independent Task

Mrs Behan

Independent task

$20 \div 10 = \underline{\quad}$

$200 \div 10 = \underline{\quad}$

$220 \div 10 = \underline{\quad}$

$\underline{\quad} = 400 \div 10$

$40 \div 10 = \underline{\quad}$

$440 \div 10 = \underline{\quad}$

$300 \div 10 = \underline{\quad}$

$30 \div 10 = \underline{\quad}$

$\underline{\quad} = 330 \div 10$

2

Harry has 10 times as many toy cars as Joseph. Harry has 90 cars. How many cars does Joseph have?

Joseph has $\underline{\quad}$ cars.

Jake has 10 times as many beads as Jessica. Jessica has 12 beads. How many beads does Jake have?

Jake has $\underline{\quad}$ beads.

What else do you know if you know **$3 \times 10 = 30$** ?
