Key Stage 2

Curriculum map

1. Philosophy

Six underlying attributes at the heart of Oak's curriculum and lessons.

Lessons and units are **knowledge and vocabulary rich** so that pupils build on what they already know to develop powerful knowledge.

Knowledge is **sequenced** and mapped in a **coherent** format so that pupils make meaningful connections.

Our **flexible** curriculum enables schools to tailor Oak's content to their curriculum and context.

Our curriculum is **evidence informed** through rigorous application of best practice and the science of learning.

We prioritise creating a **diverse** curriculum by committing to diversity in teaching and teachers, and the language, texts and media we use, so all pupils feel positively represented.

Creating an **accessible** curriculum that addresses the needs of all pupils is achieved to accessibility guidelines and requirements.

2. Units

KS2 History is formed of 10 units and this is the recommended sequence:

Unit Title	Recommended year group	Number of lessons
1 Prehistoric Britain	Year 3, Year 4, Year 5, Year 6	10
2 The Shang Dynasty	Year 3, Year 4, Year 5, Year 6	10
3 Ancient Greece	Year 3, Year 4, Year 5, Year 6	10

-

Lesson number

Lesson question

About the lesson

1.

In 1066, who was the rightful heir to the throne?

Pupils will learn

- In this lesson, we are going to be learning about three men who were battling to become King of England in 1066. We will start by learning about Edward the Confessor, whose death prompted Harold Godwinson, William I and Harald Hardrada to battle for his throne. We will learn about the battles that took place in 1066, including the most famous battle: the Battle of Hastings.

2.

Who was responsible for the death of Thomas Becket?

Pupils will learn

- In this lesson, we are going to be learning about the people that contributed to Thomas Becket's death. We are going to learn about King Henry II, his friendship with Becket and his struggle to take back power from the church. We will learn about how Henry and Becket's relationship fell apart due to the struggle between the monarchy and the church and how this led to Becket's death.

Content guidance

- Contains conflict or violence.

3.

Who was the worse king: Richard I or John?

Pupils will learn

- In this lesson, we will be learning about King John and King Richard I. We will be learning about the House of Anjou and the rivalries that developed between Henry II's sons, who all wanted to be king. We will learn about the successes and failures of both Richard I and his younger brother John. We will conclude the lesson by thinking about who was the worse king.

Content guidance

- Contains conflict or violence.
-

4.

In what ways was Edward I a 'great and terrible king'?

Pupils will learn

- In this lesson, we are going to be learning about Edward I. We will learn about his marriage to Eleanor of Castile. We will then go on to learn about how Edward conquered both Wales and Scotland and the legacies he left that are still in place today.

Content guidance

- Contains conflict or violence.
-

5. How did Henry VIII initiate the Reformation?

Pupils will learn

- In this lesson, we will be learning about Henry VIII - one of the most famous English monarchs in history. We will learn about Martin Luther's creation of a new branch of Christianity, called Protestantism and how Henry VIII changed the official religion of England from Catholicism to Protestantism in order to get his way. We will conclude by learning about his six wives.

Content guidance

- Contains conflict or violence. Contains subject matter which individuals may find upsetting.

6. Was Elizabeth I 'weak and feeble'?

Pupils will learn

- In this lesson, we will be learning about the monarchs who succeeded King Henry VIII. We will learn about the religious tensions, between Catholicism and Protestantism, that developed with each new monarch who rose to the throne. We will conclude the lesson by learning about King Philip's plots to overthrow Elizabeth I and ultimately, her victory over the Spanish Armada.

Content guidance

- Contains conflict or violence.

1. Introduction to Oak's key stage 1 history curriculum

The following document outlines the history curriculum for Oak National Academy. The History curriculum below is a starting point, not a finished product. Nationally, we are in a moment of reflection about how to teach History in our schools. Many of us are pausing to consider our curricula and ask whether and how they need improvement. At Oak we are doing the same. We

aspire to provide a rich and diverse curriculum that provides an accurate education into the lives of people in the past. This does not mean failing to meet the requirements of the National Curriculum; rather that we wish to do so whilst being representative of the people who played a role in the history of Britain and the rest of the world. We are consulting with our History advisory group and with the sector to develop what will become a full History curriculum.

This section of the document gives an overview of the principles we have held in mind whilst developing our curriculum. In the contents table below you can see how this section is organised.

2. Coherence and flexibility

At key stage 2, history will be offered as a discrete subject. Units may vary in length, depending on the number of lessons required to adequately address the historical topic. The number of units per year group at Key Stage 2 varies between 2 and 3, allowing for other foundation subjects in alternating half terms. This means that schools will have the flexibility to select a unit and teach it at a time that suits their curriculum.

Our approach to history is organised around enquiry questions at both the unit and lesson basis. This should not be conflated with 'enquiry' or 'discovery' based learning, but is rather an approach to ensure substantive knowledge is deliberately and explicitly taught and organised in a meaningful fashion, towards answering (and, where appropriate, asking) disciplinary appropriate questions. As such each unit will be internally coherent, with carefully selected content framed within lesson-specific enquiries (for example, who was the worse King; Richard or John?) and overarching unit enquiries (Who was the greatest medieval monarch?).

In order to maximise flexibility, units will make the assumption of pupils having little prior knowledge that otherwise might be optimal within the curriculum. We are aware that schools currently teach statutory National Curriculum content at different stages of pupils' education (Ancient Greece, for example, may be taught in Year 3 in some schools, and Year 6 in others). Having said this, references to other units of study will be made where appropriate, especially where a concrete example of an abstract concept is being explored. Schools are strongly encouraged to select units within a two year range with reference to our suggested curriculum map (for example, a Year 4 teacher would be advised to select only units at Year 3 or Year 5 suggested level). This is due to the fact that the difficulty of the tasks is pitched at the suggested year group. To attempt to give complete flexibility would inevitably leave some pupils finding the material much too easy, or much too challenging.

3. Knowledge organisation

The enquiries and proposed sequence of enquiries across Oak is organised around the substantive concepts. Broadly, the enquiries will use a narrative to help pupils make sense of the substantive concepts. Each enquiry will have a disciplinary focus of at least one second order concept. This disciplinary focus is made explicit for each enquiry. Within each enquiry, pupils will encounter substantive concepts which will be illustrated through concrete examples. If pupils follow the proposed Oak sequence of enquiries then they will develop a sophisticated understanding of key substantive concepts by coming to appreciate how different manifestations of certain substantive concepts (e.g. empire/revolution) differ and challenge simplistic definitions. Finally, our proposed sequence of enquiries is broadly chronological however, as enquiries are self-contained teachers could choose to develop their own thematic sequence.

4. Knowledge selection

Decisions about what to include in a history curriculum are always difficult and must take into account a number of different curricular aims. Full coverage of statutory subject content included within the national curriculum is a minimum requirement, however exactly what is taught within these topics requires decisions to be made about what to include and, therefore, what to omit.

These are the principles behind our selection of knowledge:

- **Adoptability.** We wanted to ensure that materials were available for the most commonly-taught topics in UK schools so that our resources will be useful to all schools.
- **Diversity and representativeness.** We want to pay meaningful attention to the diversity of past societies, represent the lived experiences of different groups and explore the interconnectedness of British and wider world history.
- **Overview and coherence.** We want students to build secure and coherent narratives of the past. We have tried to balance overview and depth.

-Preparation for future learning. Oak is not about giving students something to do, it is about educational continuity. Whether students follow the curriculum as a whole, or access individual lessons or units, we have foregrounded knowledge, concepts and ideas which will be most useful for students' learning in future.

There can be tension between these principles, and we know that we cannot expect everyone to agree with all of our choices. However, we have applied these principles across the curriculum as a whole and made content selection decisions in good faith. We are confident that the Oak curriculum builds a wide-range of important historical knowledge for students.

Within the National Curriculum at Key Stage 2, there are a number of depth studies that schools are able to choose from.

In terms of earliest civilisations, we have selected the Shang Dynasty of Ancient China as this gives pupils the opportunity to study Asian history, which otherwise may not be possible and gives pupils a broader understanding of world history from an earlier age.

The Oak curriculum goes beyond the national curriculum, with a number of post 1066 studies selected. This is to allow pupils to leave Key Stage 2 with a broad overview of world history across centuries, allowing them to better understand the world around them as well as the discipline of history.

5. Inclusivity and ambition

We want Oak's History lessons to support all children. Our lessons are pitched so that all pupils can get an early sense of success. Our enquiries are designed to gradually build up pupil knowledge so that eventually pupils could produce substantial pieces of work; an essay at the end of each. Our tasks are short and varied and embedded within the lesson videos meaning that pupils are not required to navigate away from the video. Where possible, activities will either be modelled or sample answers will be given after work is complete so that pupils can develop a conception of good historical writing.

6. Pupil motivation and engagement

We want to develop pupil thinking through a sequence of lessons. This is so that pupils are in the best position to retain new information and so that pupils will realise new information will help them answer the enquiry question. Each enquiry is designed to be an emergent puzzle and each lesson is designed to promote pupil thought about this emergent puzzle. In order to achieve this, lessons will include mini-activities to try to promote some of the pupil thinking that is fostered through class discussion and skilful teacher questioning.

Through careful knowledge selection and crafting engaging narratives, our teachers will reveal the intrinsic value in learning about the past without overwhelming pupils. Tasks and activities will be carefully designed so that pupils can get a sense of success and therefore feel motivated to keep learning more. The hope is that pupils feel so motivated that they feel the need to answer the enquiry question for themselves.

7. How will pupils make progress?

Students get better at history by building up knowledge of the past which is increasingly complex and secure. As they study particular periods, events and people in the past, they develop a rich understanding of these places and times. Through studying these topics, students also build their chronological knowledge, developing secure chronological frameworks, a sense of period and a coherent narrative of broad developments. Through repeated encounters in different historical contexts students also develop their knowledge of important substantive concepts like empire, trade, tax and rebellion. These layers of knowledge, built over time, give students the foundation to learn new, and increasingly complex information in history, and the Oak curriculum is designed to build this knowledge effectively and secure it in memory, whether students access single lessons or whole units.

With secure knowledge of the past, students are also able to learn about the discipline of history. Through these units, students will use their knowledge to engage with valid historical questions and learn how historians make sense of the past.
